The Times invited notable New Yorkers to personalize the iconic subway map. Use the “[Create Your Map](#)” tab above to make your own design.

### MITCHELL MOSS

#### N.Y.U. professor

“Regrettably, the subway relies on a system of naming stations based on the streets above them, rather than the names of neighborhoods or the destinations located near the subway exits. The subways work well if you know the system, but for most tourists, just locating a map on a subway car is a challenge.”
